★ Schau dir das erste Paar an. Kreise ein, was das zweite Paar genauso ergänzt.

Row 1: A square box containing a watermelon slice is followed by a colon, then another square box containing a smaller watermelon slice. This is followed by a double colon, then a square box containing a whole orange, then a colon, then a dashed square box containing a question mark. To the right are three circles: the first contains a red apple, the second contains a whole orange, and the third contains a smaller orange.

Row 2: A square box containing a strawberry is followed by a colon, then another square box containing a larger strawberry. This is followed by a double colon, then a square box containing a raspberry, then a colon, then a dashed square box containing a question mark. To the right are three circles: the first contains a larger raspberry, the second contains a smaller raspberry, and the third contains a pomegranate.

Row 3: A square box containing a small orange is followed by a colon, then another square box containing a larger orange. This is followed by a double colon, then a square box containing a plum, then a colon, then a dashed square box containing a question mark. To the right are three circles: the first contains a larger plum, the second contains a red apple, and the third contains a smaller plum.

Row 4: A square box containing a whole orange is followed by a colon, then another square box containing a smaller orange. This is followed by a double colon, then a square box containing a lemon, then a colon, then a dashed square box containing a question mark. To the right are three circles: the first contains a red apple, the second contains a whole lemon, and the third contains a smaller lemon.
