

Zahlen von 5 bis 10 zerlegen

Name: _____ Datum: _____

Schau dir jede Zahlzerlegung an. Schreibe die fehlende Zahl in den gestrichelten Kreis.

1

A diagram showing the number 5 being split into two parts: 3 and 2. The number 5 is in a solid circle at the top, connected by lines to two smaller solid circles below it containing the numbers 3 and 2. A dashed circle is positioned above the 3 and 2, representing the total 5.

2

A diagram showing the number 6 being split into two parts: 3 and 3. The number 6 is in a solid circle at the top, connected by lines to two smaller solid circles below it containing the numbers 3 and 3. A dashed circle is positioned above the 3 and 3, representing the total 6.

3

A diagram showing the number 8 being split into two parts: 6 and 2. The number 8 is in a solid circle at the top, connected by lines to two smaller solid circles below it containing the numbers 6 and 2. A dashed circle is positioned above the 6 and 2, representing the total 8.

4

A diagram showing the number 7 being split into two parts: 1 and 6. The number 7 is in a solid circle at the top, connected by lines to two smaller solid circles below it containing the numbers 1 and 6. A dashed circle is positioned above the 1 and 6, representing the total 7.

5

A diagram showing the number 10 being split into two parts: 1 and 9. The number 10 is in a solid circle at the top, connected by lines to two smaller solid circles below it containing the numbers 1 and 9. A dashed circle is positioned above the 1 and 9, representing the total 10.

6

A diagram showing the number 7 being split into two parts: 3 and 4. The number 7 is in a solid circle at the top, connected by lines to two smaller solid circles below it containing the numbers 3 and 4. A dashed circle is positioned above the 3 and 4, representing the total 7.

7

A diagram showing the number 9 being split into two parts: 4 and 5. The number 9 is in a solid circle at the top, connected by lines to two smaller solid circles below it containing the numbers 4 and 5. A dashed circle is positioned above the 4 and 5, representing the total 9.

8

A diagram showing the number 6 being split into two parts: 2 and 4. The number 6 is in a solid circle at the top, connected by lines to two smaller solid circles below it containing the numbers 2 and 4. A dashed circle is positioned above the 2 and 4, representing the total 6.
