

Tens and Ones

Name: _____ Date: _____

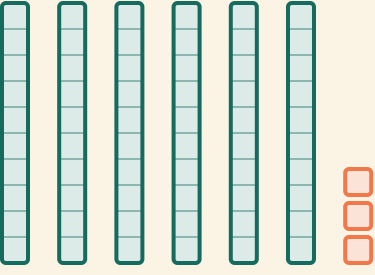

★ Count the tens and ones. Write the number.

1

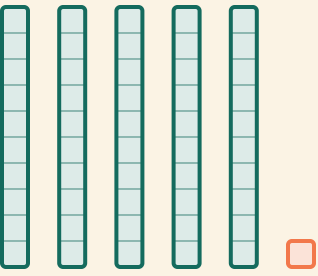

A set of 8 vertical rods, each representing a ten, and a group of 7 small squares representing ones. The ones are arranged in two columns: one column has 5 squares and the other has 2 squares.

2

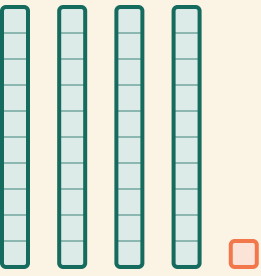

A set of 6 vertical rods, each representing a ten, and a group of 3 small squares representing ones arranged in a single column.

3

A set of 5 vertical rods, each representing a ten, and a single small square representing one.

4

A set of 4 vertical rods, each representing a ten, and a single small square representing one.
