

Code Breaker Addition

Crack the code! Find the number for each symbol and solve!

$$1. \begin{array}{c} \textcircled{6} \\ \text{Red and white dinosaur} \end{array} + \begin{array}{c} \textcircled{7} \\ \text{Blue long-necked dinosaur} \end{array} = 13$$

$$2. \begin{array}{c} \textcircled{6} \\ \text{Red and white dinosaur} \end{array} + \begin{array}{c} \textcircled{1} \\ \text{Orange Stegosaurus} \end{array} = 7$$

$$3. \begin{array}{c} \textcircled{2} \\ \text{Blue Triceratops} \end{array} + \begin{array}{c} \textcircled{7} \\ \text{Blue long-necked dinosaur} \end{array} = 9$$

$$4. \begin{array}{c} \textcircled{1} \\ \text{Orange Stegosaurus} \end{array} + \begin{array}{c} \textcircled{6} \\ \text{Red and white dinosaur} \end{array} = 7$$

$$5. \begin{array}{c} \textcircled{1} \\ \text{Orange Stegosaurus} \end{array} + \begin{array}{c} \textcircled{2} \\ \text{Blue Triceratops} \end{array} = 3$$
