

Math Worksheet

Count, add, and subtract to solve fun math problems!

Puzzle 1

$$\text{blue oval} + \text{purple heptagon} + \text{blue oval} = 17$$

$$\text{purple cylinder} + \text{blue rectangular prism} - \text{blue rectangular prism} = 7$$

$$\text{blue oval} + \text{purple heptagon} + \text{blue rectangular prism} + \text{blue oval} = 30$$

$$\text{purple heptagon} + 14 + 15 = 30$$

$$\text{purple cylinder} = \square \quad \text{blue rectangular prism} = \square \quad \text{purple heptagon} = \square \quad \text{blue oval} = \square$$
