

# How Much Longer?

Name: \_\_\_\_\_ Date: \_\_\_\_\_

★ Measure both objects. Write how many units longer one is.

1

A green trapezoid is positioned above a row of 8 unit blocks. The first 3 blocks are shaded light blue, and the remaining 5 are white. Below it, a pink parallelogram is positioned above another row of 9 unit blocks. The first 4 blocks are shaded light blue, and the remaining 5 are white. To the right of the second row is a dashed rectangular box with a small triangle symbol to its left.

2

A green trapezoid is positioned above a row of 9 unit blocks. The first 4 blocks are shaded light blue, and the remaining 5 are white. Below it, a purple square is positioned above another row of 9 unit blocks. The first 3 blocks are shaded light blue, and the remaining 6 are white. To the right of the second row is a dashed rectangular box with a small triangle symbol to its left.
