

Number Walls to 10

Name: _____ Date: _____

Each brick is the sum of the two bricks under it. Build every wall to the top.

1

A number wall diagram with three levels. The base level consists of three solid-bordered boxes containing the numbers 1, 3, and 1. The middle level consists of two dashed-bordered boxes, each positioned above one of the base boxes. The top level consists of a single dashed-bordered box positioned above the two middle boxes.

2

A number wall diagram with three levels. The base level consists of three solid-bordered boxes containing the numbers 2, 1, and 1. The middle level consists of two dashed-bordered boxes, each positioned above one of the base boxes. The top level consists of a single dashed-bordered box positioned above the two middle boxes.

3

A number wall diagram with three levels. The base level consists of three solid-bordered boxes containing the numbers 1, 2, and 2. The middle level consists of two dashed-bordered boxes, each positioned above one of the base boxes. The top level consists of a single dashed-bordered box positioned above the two middle boxes.

4

A number wall diagram with three levels. The base level consists of three solid-bordered boxes containing the numbers 2, 2, and 2. The middle level consists of two dashed-bordered boxes, each positioned above one of the base boxes. The top level consists of a single dashed-bordered box positioned above the two middle boxes.
