

Number Walls: Find the Missing Brick

Name: _____ Date: _____

One bottom brick is missing. Find it, then build the whole wall.

1

A number wall diagram with three rows. The top row has one dashed brick. The middle row has two bricks: a dashed one on the left and a solid one with the number 6 on the right. The bottom row has three bricks: a solid one with the number 2 on the left, a dashed one in the middle, and a solid one with the number 4 on the right.

2

A number wall diagram with three rows. The top row has one dashed brick. The middle row has two bricks: a dashed one on the left and a solid one with the number 5 on the right. The bottom row has three bricks: a solid one with the number 2 on the left, a solid one with the number 2 in the middle, and a dashed one on the right.

3

A number wall diagram with three rows. The top row has one dashed brick. The middle row has two bricks: a solid one with the number 4 on the left and a dashed one on the right. The bottom row has three bricks: a dashed one on the left, a solid one with the number 1 in the middle, and a solid one with the number 1 on the right.

4

A number wall diagram with three rows. The top row has one dashed brick. The middle row has two bricks: a dashed one on the left and a solid one with the number 4 on the right. The bottom row has three bricks: a solid one with the number 1 on the left, a solid one with the number 3 in the middle, and a dashed one on the right.
