

Number Walls: Find the Missing Brick

Name: _____ Date: _____

One bottom brick is missing. Find it, then build the whole wall.

1

A number wall diagram with four rows. The top row has one dashed brick. The second row has two dashed bricks. The third row has three dashed bricks, with the leftmost one containing the number 4. The bottom row has four bricks: the first is dashed, the second contains 1, the third contains 2, and the fourth contains 4.

2

A number wall diagram with four rows. The top row has one dashed brick. The second row has two dashed bricks. The third row has three dashed bricks, with the rightmost one containing the number 5. The bottom row has four bricks: the first contains 4, the second contains 2, the third contains 2, and the fourth is dashed.

3

A number wall diagram with four rows. The top row has one dashed brick. The second row has two dashed bricks. The third row has three dashed bricks, with the middle one containing the number 5. The bottom row has four bricks: the first contains 2, the second is dashed, the third contains 1, and the fourth contains 3.

4

A number wall diagram with four rows. The top row has one dashed brick. The second row has two dashed bricks. The third row has three dashed bricks, with the rightmost one containing the number 4. The bottom row has four bricks: the first contains 1, the second contains 1, the third is dashed, and the fourth contains 1.
