

Lukupyramidi: puuttuva tiili

Nimi: _____ Päivämäärä: _____

★ Yksi alin tiili puuttuu. Käytä yläpuolen tiiliä apuna.

1

A pyramid puzzle with 4 rows. The top row has 1 dashed square. The second row has 2 dashed squares. The third row has 3 squares: the leftmost is dashed, the middle is solid with the number 3, and the rightmost is dashed. The bottom row has 4 squares: the first is solid with 3, the second is solid with 3, the third is dashed, and the fourth is solid with 2.

2

A pyramid puzzle with 4 rows. The top row has 1 dashed square. The second row has 2 dashed squares. The third row has 3 squares: the leftmost is dashed, the middle is dashed, and the rightmost is solid with the number 5. The bottom row has 4 squares: the first is solid with 4, the second is solid with 3, the third is solid with 1, and the fourth is dashed.

3

A pyramid puzzle with 4 rows. The top row has 1 dashed square. The second row has 2 dashed squares. The third row has 3 squares: the leftmost is dashed, the middle is dashed, and the rightmost is solid with the number 6. The bottom row has 4 squares: the first is solid with 1, the second is solid with 2, the third is solid with 1, and the fourth is dashed.

4

A pyramid puzzle with 4 rows. The top row has 1 dashed square. The second row has 2 dashed squares. The third row has 3 squares: the leftmost is solid with the number 7, the middle is dashed, and the rightmost is dashed. The bottom row has 4 squares: the first is dashed, the second is solid with 2, the third is solid with 1, and the fourth is solid with 5.
