

Casse-Têtes Mathématiques

Résous les énigmes en images!

A 3x3 grid of math puzzles. In the center of the grid is a large, stylized cartoon sun with a yellow face, rosy cheeks, and a wide smile. The sun has several long, thin rays extending outwards, some of which are pink and some are orange. The grid is divided into nine squares by black lines. Each square contains a math equation. The equations are as follows:

$1 + 1 = 2$	$24 - 14 = 10$	$14 - 7 = 7$
$6 + 3 = 9$	$15 - 11 = 4$	$1 + 4 = 5$
$20 - 12 = 8$	$8 - 2 = 6$	$1 + 2 = 3$
