

Bildserie att klippa ut: Först, sedan, till sist — Facit

Namn: _____ Datum: _____

Klipp ut bilderna på varje remsa och klistra dem på linan med samma märke, i de tomma ramarna ovanför Först, Sedan och Till sist.

The worksheet is designed for a sequencing activity. It consists of two rows of three cards each, hanging from a string with clips. The first row shows a banana being peeled, with labels 'Först' (First), 'Sedan' (Then), and 'Till sist' (Finally). The second row shows a letter being written, with the same labels. Below each row are three dashed boxes for pasting the cards, with scissors icons indicating where to cut. A green triangle points to the first box of the second row, and a green dot points to the last box of the first row.
