

Bildserie att klippa ut: Först, sedan, till sist

Namn: _____ Datum: _____

Klipp ut bilderna på varje remsa och klistra dem på linan med samma märke, i de tomma ramarna ovanför Först, Sedan och Till sist.

The worksheet is designed for a sequencing activity. It consists of two rows of three empty dashed boxes for drawing. Below each row are three labels: 'Först', 'Sedan', and 'Till sist'. At the bottom, there are two strips of images to be cut out. The first strip shows an apple being eaten in three stages: whole, with a bite taken out, and as a core. The second strip shows a house being drawn in three stages: a simple outline, a blank box for drawing, and a fully drawn house with a sun and trees. Scissors icons indicate where to cut.
