

# Rita steg för steg: en glassbil

Namn: \_\_\_\_\_ Datum: \_\_\_\_\_

Rita det du ser i varje steg i rutan under det, med de nya linjerna varje gång, och rita sedan hela bilden större i rutan längst ner.

| 1                                                                                    | 2                                                                                  | 3                                                                                  | 4                                                                                   | 5                                                                                    |
